SAINT AGATHA SCHOOL KINDERGARTEN CURRICULUM

Science Inquiry and Application

During the years of K-4, all students must use the following scientific processes to construct their knowledge and understanding in all science content areas:

- Observe and ask questions about the natural environment
- Plan and conduct simple investigations.
- Employ simple equipment and tools to gather data and extend the senses.
- Use appropriate mathematics with data to construct reasonable explanations.
- Communicate about observations, investigations and explanations.
- Review and ask questions about the observations and explanations of others.
- Apply Catholic values to development and application of science concepts.
